Price, Quality and Service Matter

April 15, 2026

Dear Authorized Dealer:

At PFC, our goal is always to provide high-quality service with the least amount of impact on your bottom line. Over the last several weeks, we have refrained from passing on vendor price hikes of up to 5% in hopes that fuel costs would soon stabilize.

However, given the continued upward trend across the country, we must implement a small **2% “fuel surcharge” effective Wednesday, April 22, 2026**. This will apply to deliveries exclusively.

We value your business and are here to help you navigate these changes by offering quality furniture options at the best prices and with discounts when possible. Please contact your sales representative to obtain your updated delivery costs.

Best Regards,

PFC Furniture Industries Team
